

## Security Awareness TIPS

Dear Investor :

Below some security tips that will help you to protect you investment account and your personal information:

- Install and regularly update virus protection software.
- The safest passwords are those that combined with numbers and letters.
- Don't not use obvious passwords, such as your birth date or name.
- Never share your password with anyone.
- Frequently change your password.
- Your password needs to be at least 8 characters and must be alphanumeric.
- Delete suspicious emails without opening them. If you do open a suspicious email, do not open any attachments or click on any links it may contain.
- Never provide sensitive account or personal information in response to an email.
